

Raked / Tiered Seating within the Stalls

This is like the seating that you would find in a cinema, with each row slightly higher than the row in front of it. All of these seats offer a great view of the stage and are a good distance away from the stage to maximise enjoyment, making them our premium seating option.

Raked Seating (with flat rows in front)

View of the stage from the raked seats

Flat Seating within the Stalls

For some performances, we add rows of flat seats in front of the raked seats. Because the seats are quite close to the action, which some people find a bit much, flat seating costs less than the raked seating.

Flat Seats (in front of raked seating)

Gallery Seating

Our gallery seats are accessed through a flight of stairs. The seats are located around the perimeter of the hall, meaning some seats offer views of the side and rear of the stage. Ticket prices vary in cost, depending on the view of the stage.

Gallery Seating - elevated seating wrapping around the hall
